Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (currently amended). A method of supporting an electronic component, which comprises:

providing an online catalogue with electronic components;

storing a computer-executable file with a standalone simulator for simulating a circuit behavior of a specific one of the electronic components;

linking the computer-executable file to the specific electronic component in the online catalogue and enabling download of the computer-executable file to a consumer and enabling the consumer to execute a simulation with the specific electronic component in standalone mode.

Claim 2 (original). The method according to claim 1, wherein the storing step comprises archiving the computer-executable file and prompting the consumer to extract and install the computer-executable file prior to executing the simulation.

Appl. No. 09/867,642

Amdt. dated February 1, 2005

Claim 3 (original). The method according to claim 1, which further comprises storing simulation models for the electronic components in the online catalogue and enabling the consumer to download either a simulation model or a standalone simulator linked to a given one of the electronic components.

Claim 4 (original). A virtual product support system, comprising:

a computer-readable file with a listing of electronic components;

a storage system storing computer-executable files with standalone simulators for simulating an electronic behavior of the electronic components;

a computer-readable file with a listing of the standalone simulators available in said storage system and with linking information between individual standalone simulators and individual electronic components; and

a network connection for providing access to said listing of standalone simulators and for enabling download, by a customer, of individual simulators via said network connection.

Appl. No. 09/867,642

Amdt. dated February 1, 2005
